

AUBURN HILL
SENIOR LIVING

September 20, 2021

Hello Auburn Hill Residents, Families, and Team members!

I wanted to update you on a couple of things at our community. Unfortunately, we have 2 team members in our environmental services who have positive COVID results. Both are on quarantine at home. These individuals worked on the 3rd and 4th floor. Although they do not provide direct care to our residents, and the exposure may be minimal, we will be testing residents who live on the 3rd and 4th floors as well as identified team members this week.

We have notified VDH and at this point we do not plan on implementing visitation restrictions unless additional guidance is given.

As a reminder, please continue to complete the COVID screening upon entrance to the community, whether you are here as a visitor, or as a team member starting your shift.

On September 27th, Family Care pharmacy will be here to conduct our flu clinic. They will be here starting at 9:00am. Attached is a copy of the consent form, you do not need to complete the form, we just need a name and a signature, and we will complete the rest. We would like to have these back by Friday. You may turn them in at the front desk or email it to us. Please let us know if you have any questions.

Thank you for your support and understanding as we unfortunately continue to navigate through COVID. Should you have any questions please do not hesitate to let me know.

Thanks

Kelly Carter, Executive Director
