

December 3, 2020

Hello Auburn Hill Residents, Families, and Team!

I wanted to give you an update on results from our COVID testing with the National Guard. There were two residents who needed to be retested, so we are still awaiting results for those two residents and the families of those two residents have been notified. We have 2 team members who have results pending. Outside of these pending tests, results have shown no additional positive COVID cases here at Auburn Hill.

At the guidance of Virginia Department of Health (VDH), we will be required to conduct testing until we have 2 rounds of all negative test results. We are currently coordinating our testing date for next week with a laboratory service. We are planning for Tuesday or Wednesday. Any changes to this will be communicated with everyone.

With that said, we will continue to keep our residents affected by COVID in our thoughts and prayers for a speedy recovery. We will also continue to utilize PPE and our COVID screening process for residents and team members.

All restrictions for dining, activities, salon services, and visitation will remain in place until further notice and guidance from VDH regarding upcoming testing and results.

We continue to be so appreciative of everyone's support and dedication to our residents, families, and teams. If you have any questions, please do not hesitate to reach out to us.

Thanks and Take Care,

Kelly Carter, Executive Director
